Background to STARTTS

STARTTS is a state-wide service funded by the NSW Department of Health and Commonwealth Department of Health to provide high quality assessment, treatment and rehabilitation services to people living in NSW who have experienced organised violence or trauma associated with the refugee experience. STARTTS is an Affiliated Health Organisation (AHO), a Non-Government Organisation whose services are deemed to be part of the NSW public health system.

STARTTS' service provision philosophy is predicated on a bio-psycho-social framework that incorporates a large range of clinical and psycho-social interventions informed by the latest advances in neuroscience and evidence based practice in relevant fields. As such, STARTTS provides a broad range of services including assessment; counselling for all age groups; psychiatric assessment and interventions; family therapy; group interventions; body-focused interventions such as massage, physiotherapy, acupuncture and pain management groups; support groups; programs for children and youth; and various strategies to increase the capacity of support networks and refugee communities to sustain their members.

The focus of the STARTTS' approach is on building capacity and empowering people and communities to take control over their own lives, using a strengths-based approach and building on individual, family, community and cultural strengths.

Background to the Program Area of the Position

STARTTS has undergone substantial growth since becoming an Affiliated Health Organisation. This growth is likely to continue into the foreseeable future, given changes in arrival numbers and source countries, as well as program funding areas. Changes have included substantial increases in staff numbers (particularly in the Direct Services and Clinical areas), growth in the number of offices and teams, an increased presence in rural and regional areas, increased national and international commitments and changing funding structures.

With this growth, there is an increasing demand on the Executive to effectively manage the organisation. Development and management of an appropriate executive support function for STARTTS and promotion of agency support structures is crucial to managing the work of an expanding organisation. In light of these developments, STARTTS acknowledges the growing significance of digital marketing as a strategic tool in effectively communicating its core values, raise awareness about its initiatives, and create meaningful connections with various stakeholders, including beneficiaries, partners, donors, and the public.
