

How to use the RiVA Data Dashboard

The **RiVA Data Dashboard** is a downloadable Excel spreadsheet providing detailed data on:

- Community Service Organisations
- Hazards
- Economic Disadvantage

As a prototype, the **RiVA Data Dashboard** currently contains data for the following Local Government Areas:

- Hawkesbury City
- Bega Valley
- Snowy Monaro
- Eurobodalla
- Kyogle
- Lismore
- Richmond Valley

The **Data Dashboard** allows you to drill down to individual small geographic areas to see socioeconomic data for different variables and how they compare to NSW averages. The Dashboard also provides a percentage of risk of each hazard and details for Community Resources for each LGA.

The **Dashboard** has 4 main spreadsheets:

Spreadsheet 1 - Guidance

Guidance for content and use of each Dashboard spreadsheet.

Spreadsheet 2 - LGA Dashboard

Overview of **Community Service Organisations, Hazards, Economic Disadvantage and Disaster-related vulnerability data** for each Project LGA (Local Government Area).

The required LGA can be selected from the drop-down list in the top left-hand corner:

The screenshot shows the top section of the dashboard. On the left is the NCOSS logo (NSW Council of Social Service). To its right is a green header bar with the text 'Mapping Hazards/ Vulnerabil'. Below the header, there is a label 'Select LGA:' followed by a dropdown menu. The dropdown menu is open, showing a list of LGAs: Eurobodalla (highlighted in green), Kyogle, Lismore, Richmond Valley, Hawkesbury, Snowy Monaro, Eurobodalla (highlighted in blue), and Bega Valley. To the right of the dropdown menu, there are two labels: 'Poverty Rate' and 'Young People'.

The **LGA Dashboard** provides summarised data for each LGA for:

Poverty by Age – check whether your LGA has a higher rate of poverty, compared to the NSW average, for a particular age group.

Poverty by Age				
Poverty Rate		Young People (15-24)	Adults (25-64)	Older people (65+)
2021	Children			
Kyogle	21.3	32.2	20.1	15.1
NSW	15.2	13.1	12.5	14.1
Difference %	40%	145%	61%	7%

Disaster-related Vulnerabilities data:

- Age 0-14
- Age 15-24
- Age 65+
- Indigenous
- Median weekly household income
- Single (or lone) person households
- Rented
- Dwellings with no registered motor vehicles
- Households where a non- English language is used
- Not in the labour force
- Unemployed (% labour force)
- Two or more long-term health conditions
- Mental health
- Disability

Disaster-related Vulnerabilities data helps you identify priority cohorts. A high percentage compared to the NSW average indicates potential high disaster vulnerability.

Disaster-related V								
Indicators	Unemployed (% labour force)		Two or more long-term health conditions		Mental health		Disability	
Lismore	7	5.1%	5114	11.5%	5499	12.4%	3133	7.1%
NSW		4.9%		8.7%		8.0%		5.8%

Hazard Rates data

This is the hazards data from the **RiVA Mapping Tool** represented as a percentage:

Hazard Rates	
Flood prone area	0.01%
Bushfire prone area	53.72%
Landslide prone area	2.65%
More than 10 days high temperature	0.00%

The number of **Community Service Providers by type** in the LGA

Community Service Providers by type	
Community Care	5
Community Health	0
Disability & Aged Services	12
Family Support	8
Financial Counselling	3
Food, Material or Financial Aid	3
Housing & Homelessness	2
Legal Advice	0
Mental Health & Counselling	3
Youth Service	1

Important:

The Community Services data has been condensed for the purposes of the RiVA Data Dashboard. For full, up-to-date service information, refer to the [Infoxchange Service Seeker](#).

The Community Services data is point in time data, as of 2nd May 2024. For full, up-to-date service information, refer to the [Infoxchange Service Seeker](#).

Spreadsheet 3

Details of local **Community Service Organisations** and community resources by Project LGA – provided by [Infoxchange Service Seeker](#), including:

- Site Name
- Organisation (that manages the service)
- Suburb
- Phone number
- Email address
- Main Service
- All Service Types

This sheet can be sorted to suit your search needs, for example:

For comprehensive and up-to-date service data, see Infoxchange Service Seeker, www.serviceseeker.com.au
